2017顶会attention model

2018年5月2日　　9:40

KDD-2017

《Dipole: Diagnosis Prediction in Healthcare via Attention-based Bidirectional Recurrent Neural Networks》

《A Context-aware Attention Network for Interactive Interactive Question Answering》

《Dynamic Attention Deep Model for Article Recommendation by Learning Human Editors' Demonstration》

《GRAM: Graph-based Attention Model For Healthcare Representation Learning》

《Learning to Generate Rock Descriptions from Multivariate Well Logs with Hierarchical Attention》

SIGIR-2017

《Enhancing Recurrent Neural Networks with Positional Attention for Question Answering》

《Attentive Collaborative Filtering: Multimedia Recommendation with Item- and Component-Level Attention》

《Video Question Answering via Attribute-Augmented Attention Network Learning》

《Leveraging Contextual Sentence Relations for Extractive Summarization Using a Neural Attention Model》

Recsys-2017

《Interpretable Convolutional Neural Networks with Dual Local and Global Attention for Review Rating Prediction》
